

HOW TO USE MICROFICHE PARTS CATALOGUE

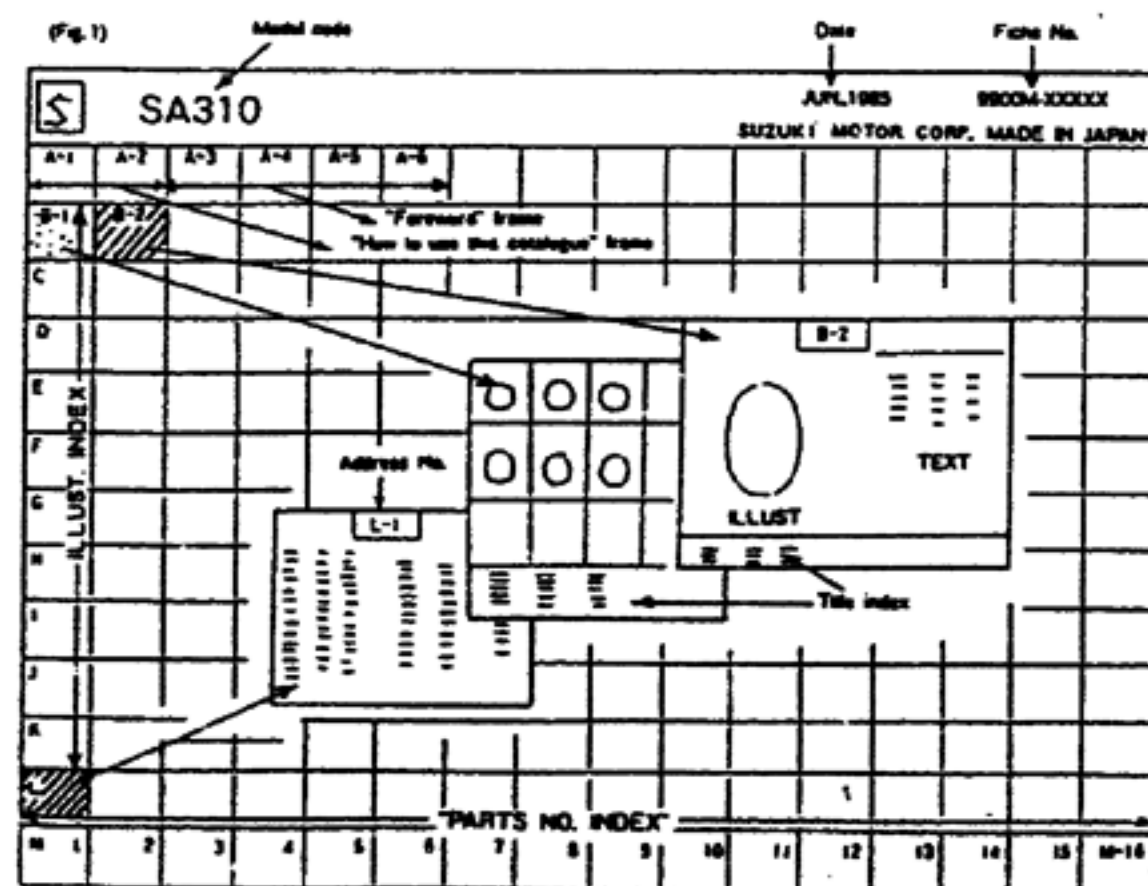

The microfiche parts catalogue we have newly prepared (hereinafter referred to as MICROCATALOGUES) have the same contents as those contained in the usual book-type parts catalogues.

If you have a microfiche reader (hereinafter referred to as READERS), you can read the information contained on the microfiche film you have, but you will still be faced with the problem of how to find the wanted film CATALOGUES, the contents are arranged according to a certain rule, and if you learn this rule by heart, any frame of the microfiche film, containing the wanted information, can be found quickly, with the use of the index plate which is attached to the READER.

It is important that you always use the index plate when looking for a certain frame in the microfiche film.

A. Composition of the MICROCATALOGUES

Now, you are going to learn the arranging "rule" of information in the MICROCATALOGUES, the "rule" determining which kinds of information are located at which parts of the microfiche films in the MICROCATALOGUES with the help of the drawing below.

Let us explain Fig. 1

- 1) Our MICROCATALOGUES consist of microfiche films each having 208 frames arranged in 13 horizontal rows (columns A through M) by 16 vertical columns (row 1 through 16).
- 2) The top space above the horizontal row A is the title space where the model code, catalogue date, and other information are printed.
- 3) File Number
Since each microfiche film contains only up to 416 pages of the book catalogues, two, three or more films are sometimes required to contain a complete catalogue. In these cases, each microfiche film composing a certain MICROCATALOGUE is identified by a consecutive file number printed at the upper right hand corner.
- 4) Date
The date on which the MICROCATALOGUE is prepared is indicated.
- 5) "How to use this catalogue"
The frames identified by the address Nos. A-1, A-2 and A-3 contains the explanation on how to use the MICROCATALOGUE.
- 6) Foreword
The frames identified by the address Nos. A-4 and A-5 contain the same foreword as contained in the book-form catalogues.
- 7) Illust. index
All the frames in the leftmost vertical column except the top one (B-1 through K-1) contain illustration indexes. Each index contains all the illustrations belonging to the respective blocks such as the engine block, electric block, and frame block, in reduced forms extracted from the MICROCATALOGUE proper, with the relevant titles and address Nos. shown.
- 8) Title index
In the space below the array of reduced illustration pages in each of the illustration index frames, the titles and the related address Nos. of all the reduced illustration pages shown in the upper space of that frame are listed to serve as title indices. The same title indices are also listed in the lower space of each of the illustrated text frames.
- 9) Parts No. index
All the frames in the bottom horizontal column (1. In only one sheet, it is recorded from indicator No. M1./2. In more than two sheet, it is recorded at the lower line of last sheet.) are for parts No. indices. All the parts Nos. contained in the MICRO CATALOGUE are arranged orderly together with the respective address Nos.

B. Indexing system

Along with information contained in microfiche films, the indexing system is a major factor. In our MICROCATALOGUES, the following three indexing systems are utilized:

B-1 Indexing systems

1) Illust. index

The illust. indices are for finding parts of which the shapes are known.

NOTE: Sometimes, small parts are difficult to indentify in the illustrations by their shaper. For these parts, you should look for some larger parts to which the parts in question are attached.

2) Title index

This index system is for finding parts when the name of the principal parts to which they are related is known.

NOTE:1 For the titles of the illustration pages, only the name of the most representative piece in the page is adopted (for example, the name of an assembly part).

This means that the names of must small parts cannot be found in the parts name index list. You must always look for a major part to which the wanted parts belong, when looking for these parts, using the part name index list.

NOTE:2 When there are more titles than the title index space of one frame can accept in one catalogue, the titles are divided into several blocks (ex., engine block, frame block, etc.).

3) Parts No. Index

This index system is for finding parts when the part Nos. are known.

B-2 Indexing procedures

Now, let us explain the procedure for finding wanted frames with the help of the three indexing systems.

a. Finding wanted parts in the MICROCATALOGUE

a-1 How to find the parts Nos. of parts of which the shapes are known.

Procedure 1

Shift the fiche carrier until the B-1 square on the index plate is brought directly under the carrier needle.

Procedure 2

Now, the illust. index printed in the frame B-1 is projected on to the screen. Try to find an illustration in which the wanted part is shown, among the array of reduced illustrations projected.

Procedure 3

If you found an illustration in which the wanted part is shown, go on to Procedure 4. If the wanted part is not found in any of the illustrations in the frame B-1, shift the fiche carrier to C-1 and try to find an illustration in which the wanted part is shown among the arrayed reduced illustrations. If the wanted part is not found in any of the reduced illustrations, shift the fiche carrier to D-1, then to E-1 and so on to K-1.

Procedure 4

Make a note of the address No. of the illustration in which the wanted part is shown.

Procedure 5

Shift the fiche carrier until the square corresponding to the address No. found in the procedure 4 or 9 is brought under the carrier needle.

Procedure 6

Check the address No. of the projected square.

Procedure 7

Look for the wanted part in the illustration on the left half of the screen, and read the identification number of this part.

Procedure 8

Look for the obtained identification number in the text page in the right of the screen, and read the relevant information. This is how one part is found with the help of the illust. index system.

a-2 To find another part proceed as follows:

- 1) If the shape of the next wanted part is known, again project the frame B-1 and go through the procedures 2 through 9.
- 2) If the name of the next wanted part is known, try to find the address No. in the title index list shown in the lower portion of the screen, and carry out the procedures 5. (Title index)
- 3) If the part No. of the next wanted part is known, project the L-1 or M-1 frame and read the address No. corresponding to the known part No. Then, carry out the procedures 5. (Part No. index)

Make full use of the three index systems in each case as explained above.

NOTE: After reading the required information, you should switch off the READER and put the microfiche back in the file.

PREFACE

When it becomes necessary to replace parts on SUZUKI MOTORCYCLES, always use SUZUKI GENUINE PARTS which have passed a strict inspection which guarantees quality and performance.

This parts catalogue covers the list of all service parts for SUZUKI GSX-R750MN, GSX-R750MP, GSX-R750NR, GSX-R750NS.

INSTRUCTIONS FOR QUOTING THE CATALOGUE

1. DIMENSIONS

Dimensions of the parts in this catalogue are indicated in unit millimeters.

2. ABBREVIATIONS

Abbreviations used in this catalogue are as follows:

AR	: As required	NT	: Number of teeth
ASSY	: Assembly	OPT	: Optional
E.No.	: Engine number	OS	: Over size
F.No.	: Frame number	STD	: Standard
d	: Diameter of material	T	: Thickness
ID	: Inside diameter	US	: Under size
OD	: Outside diameter	W	: Width
L	: Length		
LH	: Left hand side		
RH	: Right hand side		
-100045	: Up to F.No.JS1GR7BA-100045		
100046~	: From F.No.JS1GR7BA-100046		

12 x 24 x 2.6 Figures in the description column show the dimensions of parts.
 ID OD T(or W,L)

3. INNER PARTS OF ASSEMBLY

Part name with a dot (.) in front as shown in the description column indicates the component of the assembly also available individually.

4. MODIFICATION NOTICE

A parts bulletin will be sent to you on all occasions when changes in parts occur, including interchangeable modifications between new parts and old ones.

5. NOTE

- 5-1. There are some different parts from those of production models among spare parts for the administrative reasons and common use of them with other models.
- 5-2. In respect of rubber hoses and vinyl tubes, please be sure to use them by cutting off according to the length mentioned on parts catalogue or what is actually required on the vehicle.
- 5-3. Note that the drawings on the illustration page are for ready reference of spare parts number, not to be used as an assembly manual. When assembling, use "SUZUKI SERVICE MANUAL".

6. SERIAL FRAME NUMBER

GSX-R750MN : JS1GR7BA N2100001-
 GSX-R750MP : JS1GR7BA P2100001-
 GSX-R750NR : JS1GR7BA R2100001-
 GSX-R750NS : JS1GR7BA S2100001-

PREFACE

Quand il devient nécessaire de remplacer des pièces sur SUZUKI MOTOCYCLETES toujours utiliser les PIÈCES D'ORIGINE SUZUKI qui ont été soumises à des contrôles de qualité sévères leur garantissant qualité et performance impeccables.

Ce catalogue de pièces détachées couvre la liste de toutes les pièces de rechange pour SUZUKI GSX-R750MN, GSX-R750MP, GSX-R750MR, GSX-R750WS.

INSTRUCTIONS POUR UTILISER LE CATALOGUE

1. DIMENSIONS

Les dimensions des pièces dans ce catalogue sont indiquées en unités de millimètres.

2. ABRÉVIATIONS

Les abréviations utilisées dans ce catalogue sont les suivantes:

AR	: Comme requis	NT	: Nombre de dents
ASSY	: Assemblage	OPT	: Sur option
E.No.	: Numéro du moteur	OS	: Sur-dimensionné
F.No.	: Numéro du châssis	T	: Epaisseur
ID	: Diamètre intérieur	US	: Sous-dimensionné
OD	: Diamètre extérieur	W	: Largeur

L : Longueur
LH : Côté gauche
RH : Côté droit

-100045 : Jusqu'à F.No.JS1GR7BA-100045

100046- : Depuis F.No.JS1GR7BA-100046

12 x 34 x 5.6 Les chiffres dans la colonne
ID OD T(or W,L) remarques montrent les dimensions
des pièces comme suit.

3. PIÈCES INTERNES DE L'ASSEMBLAGE

Les numéros de pièces qui comportent un point (.) avant la désignation de pièce détachée indique la pièce interne se rapportant à l'assemblage.

4. AVIS DE MODIFICATION

Un bulletin de pièces détachées vous sera envoyé à tout moment opportun quand des changements de pièces ont lieu, y compris les modifications de pièces interchangeables entre les nouvelles et anciennes pièces.

5. A NOTER

- 5-1. Il existe certaines pièces différentes de celles de rechange pour les modèles de production vu des raisons administratives et dont l'usage est commun avec celles d'autres modèles.
- 5-2. Concernant les durites en caoutchouc et les tuyaux en vinyle, ne pas manquer de les couper à la bonne longueur comme indiqué dans le catalogue des pièces détachées ou selon ce qui est utile pour le véhicule affecté.
- 5-3. Noter que les dessins à la page d'illustration servent à titre de référence pour les numéros de pièces détachées, et non pas comme référence pour l'assemblage. Pour cette dernière opération, se reporter au "MANUEL D'ENTRETIEN SUZUKI".

6. NUMÉRO DE SÉRIE DU CADRE
